Software Engineer, WorkLeap (ex GSOFTE Inc.)

Montréal, Canada

Apr 2016 — Nov 2016

- Evaluated and improved code design/architecture
- Developed custom controls in **WPF** through Microsoft Blend
- Authored comprehensive front-end **XAML/MVVM** coding guidance
- Provided training for junior developers in **WPF**
- Participated in the redesign of **UI/UX** in collaboration with business analysts and designers
- Recognized as the best monthly department employee for outstanding contributions

Software Engineer, Orchestra Inc.

Montréal, Canada

Apr 2013 — Apr 2016

- Engaged in back-end and front-end development following **Scrum & Lean Agile** methodologies
- Utilized **Reactive Extensions (Rx)** with **C#**
- Facilitated knowledge transfer within the team for front-end technologies
- Contributed to enhancing the front-end architecture
- Authored integration tests using **Specflow**
- Led the POS (Point Of Sale) project (**Universal Windows**), overseeing technical decisions, full-stack development, analysis, design, and code review
- Actively participated in **UI/UX** processes

EDUCATION

Master of Science, University of Strasbourg

Strasbourg, France

Sep 2009 — Sep 2011

Software Engineering, Algorithms, Bioinformatics, Network, Semantics

Bachelor of Science, University of Strasbourg

Strasbourg, France

Sep 2005 — Sep 2009

Software Engineering, Database, Data Structures, Mathematics

PERSONAL PROJECT

CTO & Principle Software Engineer, Di Vini

Remote

Oct 2020 — Dec 2021

Di Vini aims to create and store tasting notes for wines. Developed using **React Native**, the app is accessible on both the App Store and Play Store.

- Set up the development environment, including **VS Code**, libraries, and file structure
- Implemented **Google Analytics** for analytics tracking
- Integrated **Firebase** for storing wine notes
- Created custom components such as an expander, input, toggle button, ...
- Used **Fastlane** for package management and release processes
